

Tips to keep in mind as you review your options

Making sure your health plan meets your needs is up to you. After finding the right plan, be sure to take advantage of your benefits.

Five things to consider when reviewing your Medicare Advantage plan options:

1. **Ensure the doctors you want are in-network.** Have your doctors' names, specialties, addresses and phone numbers with you. If you don't have a primary care doctor, we can help you find one that meets your unique needs.

2. **Confirm your insurance information:**
 - Have your Medicare card and the date Medicare Part A and B starts for you.
 - Make sure you know the current premium or monthly cost of your plan.

3. **Review any special needs and your prescriptions** to determine whether your plan will cover your current medications and at what cost to you.

4. **Take a close look at extra benefits**, such as dental, vision, health care-related transportation and virtual care visits, which go beyond what's provided by traditional Medicare.

5. **Be aware of any travel restrictions.** If you plan to travel or have another home out of state, make sure a plan will cover you on the move.
